SEC. 4.3.5 RESTAURANT REQUIREMENTS.

- A. The availability of food in licensed establishments promotes moderation by encouraging people to eat while they drink — or better yet, to view alcohol consumption as a complement to a meal. The distinction is not an insignificant one. Consumption of food lessens the intoxicating effects of liquor. Just as important, though, is encouraging a public attitude in which liquor is seen as an accompaniment to food, rather than an activity that is indulged in for its own sake. The requirements of this Section apply to all holders of Restaurant licenses.
- B. A restaurant must keep its kitchen open and be serving meals from 5:00 p.m. to 9:00 p.m. on any day the restaurant is open for business and at all times between 11:00 a.m. and 5:00 p.m. when alcohol is being served.

- C. A Restaurant must make available to its patrons in all areas where alcohol service is available an offering of at least five different meals during a regular meal period, which must last at least three hours. At least three out of the five different meals used to meet the minimum meal requirement must include a main course or entrée (substantial food item) that has been prepared or cooked on the premises in some manner beyond the simple re-heating of a pre-cooked frozen food or carry-out item obtained from a business other than the licensed premises. A business may have fewer than five different meals in the premises or in an area if the Commissioner determines that the clearly dominant emphasis in the premises or in the area is food service after 5:00 pm.
- D. At all times other than required meal periods and in all areas where alcohol service is available, businesses must make available to their patrons an offering of at least five different substantial food items.
- E. Dining Seats during Required Meal Periods: The licensed premises must have at least 30 dining seats during required meal periods. Seats at counters in entertainment areas and at bars do not qualify as dining seating. A premises may have less than 30 dining seats if the Commissioner determines that the clearly dominant emphasis of the premises is food service at all times and in all areas where alcohol service is available when open to the public.
- F. A restaurant must contain a kitchen that has adequate operating equipment and staff to meet the food service requirements under subsection C. A kitchen is deemed to have adequate equipment if it contains all of the following fully operational equipment:
1. A commercial-grade grill or range.
 2. A commercial-grade oven.
 3. A range hood.
 4. A commercial-grade deep fryer.
- G. The Commissioner may grant an exception from any of the requirements under subsections C, D, E, and F if the Commissioner determines that the clearly dominant emphasis in the premises is food service. If the Commissioner grants an exemption under this subsection and it is later determined that the clearly dominant emphasis in the premises is not food service, then the licensee is in violation of this Section and is subject to revocation, suspension, or other penalty for violations under this Chapter.
- H. Each Restaurant licensee must keep a record of all food items sold such that a determination that the restaurant is serving meals regularly can be made.
- I. Definitions. As used in this SEC. 4.3.5:

Substantial food items means food items prepared or cooked on the licensed premises and that are typically served as a main course or entrée. Some examples

could include but are not limited to items such as fish, steak, chicken, pasta, pizza, sandwiches, dinner salads, hot dogs, soup, and sausages. Side dishes, appetizer items, dessert items, and snack items such as popcorn, peanuts, chips and crackers do not qualify as substantial food items.

Meal means a substantial food item offered together with at least one side dish or a substantial food item with two or more side dishes available to order separately. Side dishes include but are not limited to vegetables, fruit, salad, rice, french fries and bread.

Different means substantial food items that the Commissioner determines differ in their primary ingredients or method of preparation. For example, a turkey sandwich differs from a salami sandwich, a beef burger differs from a turkey burger, a pepperoni pizza differs from a cheese pizza, and fried chicken differs from baked chicken. Different sizes of the same item are not considered different under this rule. For example, a large cheese pizza is not different from a small cheese pizza and a large hot dog is not different from a small hot dog.

Dining seats means seating at indoor tables or food counters located in areas of the licensed premises regularly open to the public where the Commissioner determines that each table top or seating area provides a minimum space that will accommodate a place setting consisting of a plate or dish, glassware, napkin and utensils for each seat.
